

COOL CHANGE GROUP

An act that has been performing together for six years, the versatile trio promises a fun filled and exciting music experience. Cool Change is Walter Tatum and David Horton of Foley, John Andrews and Don McPherson of Magnolia Springs. The trio began singing together by chance during a Coastal Chorale performance where they sang one of Alabama's great songs, "Christmas In Dixie". The performance thrilled the crowd and from that event, a new and exciting vocal trio from the local area was formed. They have been a hit playing at venues throughout the Gulf Coast area. These seasoned performers have a wealth of performing history throughout Baldwin County and beyond.

With tunes such as "Please Come To Boston", "The City of New Orleans", "Love Will Keep Us Alive", "Jambalaya", "It's A Wonderful World", "Broken Lady", and many others, Cool Change has delighted audiences with their close harmony, down home style and humor, and fun filled antics during their performances. Each performance demonstrates a mark of talent and commitment to its listening audience. With their smooth three part harmony, the trio will take you on a trip down memory lane with the great songs from the past and present.
